

PRF COURSE

2 DAYS PROGRAM

Platelet Rich Fibrin Course Advanced PRF™ & injectable-PRF™

A-PRF and i-PRF in oral surgery

Growth factors: biology and physiology, mechanisms of action

► Day 1

1. ADVANCED PRF AND I-PRF IN ORAL SURGERY

Growth factors: biology and physiology, mechanisms of action Advanced PRF: More cytokines and BMPs.

i-PRF: Injectable PRF who clots after injection Composition and influence on tissue healing.

A-PRF as "matrix" in soft tissue management: protocols, clinical results

A-PRF as "matrix" in bone augmentation: protocols, clinical results

A-PRF & i-PRF with biomaterials: what kind of biomaterials do we have to mix with PRF ? Protocols, clinical results, new perspectives in bone reconstruction.

Factors who antagonize the PRF: Vit.D Level, Cholesterol, Contamination, Pressure, Tension: protocols & solutions.

2. HANDS-ON AND DEMO

► Day 2

1. BIOLOGY AND MEDICINE APPLICATIONS IN ORAL SURGERY

Pain management in oral surgery

How to reduce and prevent

- allergic reactions
- smoking failures in oral surgery
- contamination and infectious complications in oral surgery

2. PHELEBOTOMY TECHNIQUE

In order to maximise the potential of the A-PRF™ and I-PRF™ solution you need to be able to draw blood from your patient. There will be an introductory course in taking blood, including a hands-on session
